To IAC Industries it was my pleasure to review your product line in regards to “Quick Ship Benches, Pro Series Workstations, Material Handling Carts , Lab Workstations and Smart Mobile Stations. “The Easily to Configure Quick Ship Products” far exceed the requirements to meet the Lean 5S concepts covering, Ergonomics, Point of Consumption, and Product Flow. Lemtek is proud to endorse the full IAC Industries product line and encourage any progressive Lean company to review the value add that IAC Industry has built into each product they offer. In my 20 years as a Sr. Lean Engineer I find the usage and support offered by IAC Industry to be exemplary.

Thanking you

Richard S. Mejia

Certified SR. Lean Engineer
